2018-2019

OUR STORY

MISSION STATEMENT

Our mission is to produce and continually develop quality products with highest possible standards. We will always strive to service our customer with the utmost integrity, and to their complete satisfaction. It is our goal to ensure our mission by continuous self improvement, growth in our operations and employees; while maintaining profitability to the benefit of our customers, employees, and community.

VALUE STATEMENT

- **Design**
We offer the widest selection of patterns and finishes available to match the breadth of your imagination and make your design unique.
- **Performance**
We use premium materials with high-quality standards to keep your designs pristine even in the most strenuous environments.
- **Service**
We have a large footprint with Asia's largest manufacturing facilities located at Panchkula, India & distribution centers all across globe to ensure timely delivery.
- **Community**
Stylam is dedicated to giving back to the communities in which we reside by supporting local and national non-profit organizations with both funding and product.
- **Sustainability**
We are committed to preserving our environment and enhancing the quality of life in the communities we serve.

25 years spent pursuing the ethos, 'what the spirit commits, perseverance completes' is what has shaped Sty/am Industries Limited. Incepted in the year 1991, under the name of Golden Laminates Private Ltd, we started our success story by manufacturing decorative laminated sheets for both residential as well as industrial applications.

Today, under the brand name STYLAM, we have been combining industrious efforts, wide experience and innovative product customization to consistently deliver quality and satisfaction to our clients. Dealing in Post Forming, Magnetic Laminate, Mirror Laminate, Anti Finger Print Laminate and Chemical-resistant Laminate, STYLAM is a name trusted for unmatched laminates that suit every budget. We are reputed to be a global entity with a Pan India presence and a thriving export market in more than 60 countries. Our major customers are in Europe, Far East, Middle East, Russia and North America and we continue to maintain robust YOY growth.

We have our state-of-the-art infrastructural plant at Panchku/a in North India. Our manufacturing unit has world-class machines and equipment and insures maximum production of laminates in minimum time and our machines are operated by highly skilled and best-in-class workmen. Sophisticated moulds of various finishes imported from Europe are used in the production of our high quality laminates in accordance with the universally acceptable European standards EN 438 series. Marking our silver jubilee celebrations is the inauguration of our second production facility, this is an ultra modern manufacturing plant designed by renowned Singapore-based architects. The factory is spread over 36 acres and has been designed considering the most modern structural concepts. The facility will have a hydraulic press system capable of producing the biggest size of laminate panels in India at 4320 x 1860 mm. Jointly our production facilities will ensure that we become the largest laminate producing group in India with a production capacity of over 12 million laminate sheets.

We are an ISO 9007:2015 certified company, that itself shows our integrity, quality and reliability. Another feather in our cap is, we are recognized as an 'Export House' by the Government of India. Our unique design range and advanced quality efficiency of laminates has assisted the company in being awarded the prestigious CE certification for its compact laminates.

INTRODUCING ASIA'S LARGEST LAMINATE PLANT!

We are humbled to serve you better with our new plant spread across 36 acres, empowering us with annual production capacity of over 12 million laminate sheets.

USP of STYLAM

- ✓ *Asia's biggest Infrastructure & manufacturing plant of Laminates.*
- ✓ *Largest capacity of hydraulic press in India having 24 daylight openings in following size 1220 x 2440 mm, 1300 x 2850 mm, 1300 x 3050 mm, 1860 x 3660 mm & 1860 x 4320.*
- ✓ *Credibility of more than 25+ years in Industry.*
- ✓ *Having Global presence in more than 60+ Countries.*
- ✓ *Over 2500+ Design, 80+ Textures & Finishes.*
- ✓ *Having range of High Pressure Laminates, Cubicles board, HPL Exterior Cladding, Acrylic Solid Surfaces.*
- ✓ *State of art technology & manufacturing of acrylic solid surfaces.*
- ✓ *We have multiple finishes available in High Gloss, Metallic, Anti-bacterial, Chalkboard, FR, electrostatic, magnetic, mirror, translucent, chemical retardant laminates.*
- ✓ *Having Pan India Channel partner network.*
- ✓ *Stylam Laminates Uniform and superior sanding ensure best bonding with substrates.*

Evolution / Milestones of Stylam

& many more coming soon as Stylam keep focusing on its R&D work to develop technologically advanced products & bring a turnaround into Global Market.

ANTI-BACTERIAL & ANTI-FUNGIE LAMINATES

LAMINATES TO LAST THROUGH YEARS KEEPING YOU AND YOUR LOVED ONES AROUND HEALTHY.

Anti-bacterial & Anti-fungie Laminate is intended for application where there is a need for additional protection of the surface against bacteria/fungie. A very special resin formulation is applied over decorative surface paper to achieve high degree of bacteria growth resistances. The decorative paper is impregnated with the special Melamine resin and assembled with several layers of phenolic resin treated kraft paper and pressed under 90Kg/sq cm specific pressure and at about 150°C temp for about 30 to 40 min.

- ☒ Lab determination of Anti-Bacterial Activity using ISO 22196 – 2011 shows 99.99 % reduction in bacteria within 24 hrs of contact.
- ☒ The Anti-Bacterial substances used are free from halogen substances.
- ☒ The Anti-Bacterial properties are effective as long as the product life.
- ☒ The laminate is easier to maintain as frequent cleaning is not required. Even the requirement of disinfectants is quite less.
- ☒ The even distribution of Anti-Bacterial substances ensures effectiveness throughout the Laminate surface.
- ☒ The Anti-Bacterial properties meet the standards of ASTM G21 – 09 and ISO 22196 – 2011, which is based on JIS Z 2801.

UNICORE Laminate

Upper surface layer-
Melamine resin infused
Solid Coloured Decor paper
Core layers- made up of
Amino resin infused papers
that are same coloured as
surface layer

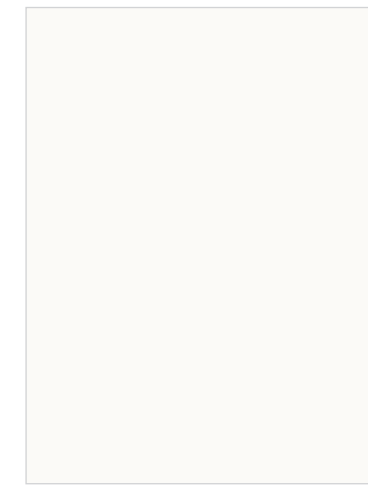

Regular Hi-gloss Laminate

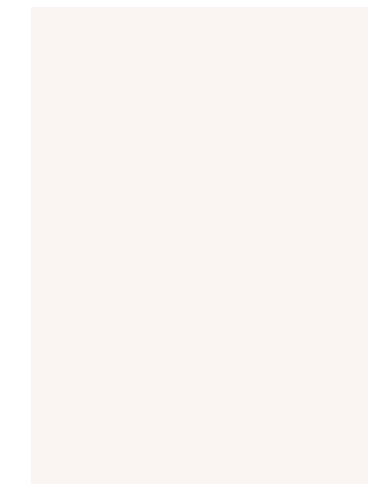

Upper surface layer-
Melamine resin infused
Solid Coloured Decor paper
Core layers - made up of
Cellulose Kraft paper,
hence core is brown or black

What makes UNICORE unique is the identical colour of the decorative surface and the core layers too! Flaunt your desks, doors, counter-tops, table-tops, drawers, display shelves, shutters and all the other furniture with stunning and flawless UNICORE surface that has uniform look all across.

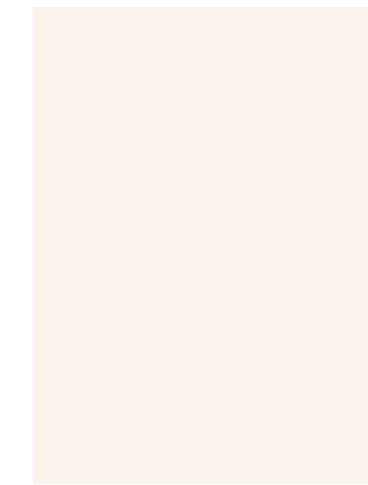

Tastefully selected decorative papers for surface layers are infused with treated Melamine resins. Same decorative papers are used as core layers that are infused with specially treated Amino resins. Absence of dark lines in the UNICORE give a clean look to interior furniture. Allows interesting effect to be created on the surface by engraving and routing.

Your decision to select Stylam Laminate will bring you years of quality performance. Everyday cleaning of our products is as simple as a quick wipe with a damp sponge. All resist muddy fingerprints, coffee spills and so much more.

Please read and follow the recommended care and cleaning procedures:

ROUTINE CARE

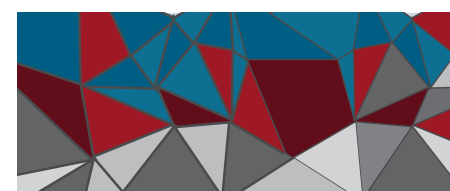

- ☒ To clean the surface, use a damp cloth or sponge and a mild soap or detergent. Rinse thoroughly with warm water and wipe dry.
- ☒ Difficult stains such as coffee or tea can be removed using a mild household cleaner and a soft bristled brush, repeating as necessary.
- ☒ If a stain persists, use a paste of baking soda and water and apply with a soft bristled brush. Light scrubbing for 10 to 20 strokes should remove most stains. Although baking soda is a low abrasive, excessive scrubbing or exerting too much force could damage the decorative surface, especially if it has a gloss finish.
- ☒ Stubborn stains that resist any of the above cleaning methods may require the use of undiluted household bleach or nail polish remover. Apply the bleach or nail polish remover to the stain and let stand no longer than two minutes. Rinse thoroughly with warm water and wipe dry. This step may be repeated if the stain appears to be going away and the color of the laminate has not been affected. **WARNING:** Prolonged exposure of the laminate surface to bleach will cause discoloration.
- ☒ Hot pans and heat-producing appliances (such as electric skillets), when set directly upon countertops, can damage the product's beauty. Always use a heat shield, hot pad or trivet.

CAUTION PLEASE!

- ☒ Acidic or abrasive cleaners can damage laminate surfaces; do not use them.
- ☒ Drain cleaners containing lye will permanently damage any Stylam Laminate surface. If you spill a drain cleaner, wipe it up immediately and rinse several times with water.
- ☒ Hair, textile and food dyes can cause permanent stains. If dye should happen to spill, wipe it up immediately with dishwashing detergent or an all-purpose cleaner.
- ☒ Never place pots or dishes directly from the oven or burner on an unprotected laminate surface; such extreme heat can cause cracking or blistering.
- ☒ Do not work with oven cleaners on an unprotected countertop. Wipe spills away promptly and rinse several times with water.
- ☒ Rust removers contain harsh chemicals which will quickly cause permanent damage. If a spill occurs, wipe off all residue immediately, wash thoroughly with soapy water and rinse several times.
- ☒ Steel wool and other abrasive pads will damage Stylam Laminate. Don't use them for cleaning and don't store steel wool pads on your countertop; the metal can rust and leave stains.
- ☒ Toilet cleaners contain harsh chemicals that can cause permanent damage. If spills occur, wipe up immediately, wash surface with soapy water and rinse several times.

CERTIFICATIONS

In 25 years, we have achieved what only a few dream of. Truth is, we just keep on going, with what we have decided. And then everything else... just follows.

The ISO 9001:2008 certification is a hallmark of integrity, quality and reliability. The design and efficiency of the laminates have earned us the CE Marking Award.

Stylam takes pride in being recognized as an Export House by the Government of India. We meet all quality, safety and green standard and operate as a responsible corporate citizen.

Granex

SOLID SURFACES
Granex Solid Surface by Stylam

Engrave it. Color it. Thermoform it. Granex can be whatever you imagine it can be. Undulating, virtually seamless, organic shapes, bold effects of color and translucency – if you can dream it, you can create it with Granex Acrylic Solid Surface. A brand new addition in Stylam house.

A signature innovation, Granex Solid Surface Design continues to evolve and to inspire. We collaborate with designers, architects, artists and fabricators around the globe to reach & develop new creative heights with this extraordinarily impactful material & becoming INDIA First Manufacturing Plant.

Choose from a wide range of trendsetting patterns and tones or even create your own custom colors. And Granex works everywhere – it is the material of choice for architects and designers specializing in healthcare, food service, hospitality, office buildings, schools, and of course, homes.

CUBOID

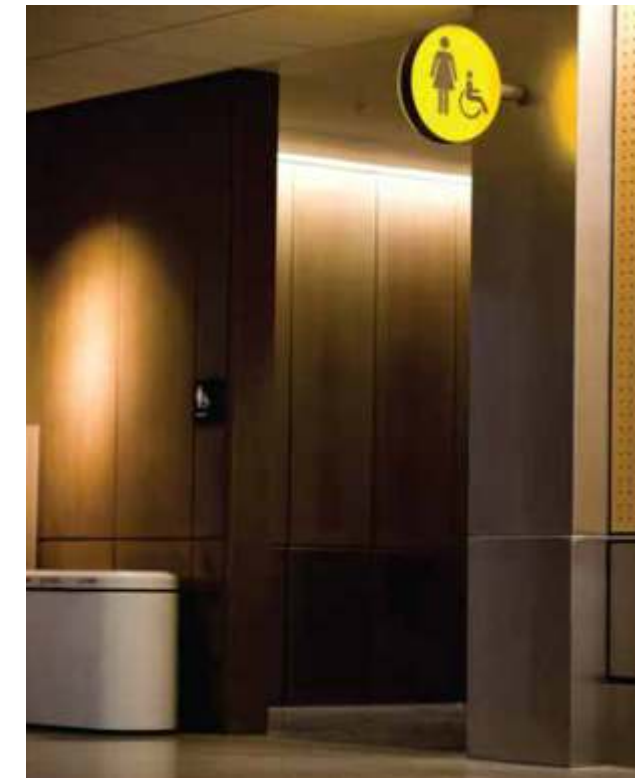

CUBICLES & LOCKERS

Restroom Cubicles & Locker

Stylam range CUBOID – a modular restroom and locker cubicle systems. Cuboid range is crafted using the finest materials and highest quality fixtures and fitting especially for heavy traffic areas where functionality and durability matters most. Our focus is on offering high-quality products that meet the specific demands of restroom applications in commercial, hospitality healthcare, education, transport, sports & wellness and leisure sectors.

Cuboid has an exhaustive range that is stylish, sturdy yet affordable and is available in various formats, shapes and surface designs. Beside, our cubicle systems come in special dimensions that take care of the needs of the physical challenged individuals. Anti Bacterial and Anti Fungi properties of the laminate surface minimize the risk of spreading and transferring bacteria. Stylam Cuboid is India's First Manufacturer with 1860 x 4320 mm Panel Size.

INDUSTRIAL LAMINATES

Stylam Industrial Laminate Panels are available in the options of all brown core, all black cores and sandwiched design core. The prominent applications include Flooring, Cabin Partitions, Laboratory Furniture, Interior Walls, X-ray Tables, Bedroom Cupboards, and Kitchen Working Surfaces, Living room cabinets, Bathroom doors, Wall panels & exhibition stands.

The Industrial Laminate panels are formulated with inner core of celluloid fibers impregnated with special thermosetting resins. High values of flexural strength and tensile strength ensures that these panels are suitable for saw cutting, drilling, machining and punching as per requirement.

FASCIA

EXTERIOR CLADDING

From inspiration to application, each and every aspect of 'exterior designing' is different. While weather plays a crucial role, it is also aesthetics that drives the concept. Fascia Exterior Cladding has been conceived keeping all the aspects into consideration. The laminates are manufactured with special properties linked to the low surface tension, optimal UV resistance, high chemical resistance, easy to clean, anti soiling, anti fouling.

Fascia Exterior claddings are resistant to ultra violet light, water, hail, adverse weather, termite & borer. Our cladding meets international EN 438 standard of High resistance to abrasion and color fading in extreme conditions (especially Indian weather conditions). These Fire Retardant Exterior panels have extreme fire retardant quality which makes them difficult to ignite and have a low spread of flame.

Advantages of Using Stylam Fascia Exterior Cladding:

- UV Resistant (No color fading)
- Weather, Water, Moisture, Heat and Fire Resistant.
- Chemical Resistance
- Anti Soiling
- Anti graffiti
- High impact resistant
- Scratch resistant
- Wear & tear resistant
- Good dimensional stability
- Easy to install and easy to dismantle
- Strong, Self-supporting, durable and long lasting.
- Does not need any maintenance

UNICORE LAMINATES

Unicore Laminates are unique combo of identical colors with core layered decorative surfaces. Tastefully selected decorative papers for surface layers are infused with treated melamine resins. Same decorative papers are used as core layers that are infused with specially treated Amino resins.

Unicore is a world where you could feel vibrancy of colors through & through, flaunt your desks, doors, counter-tops, table-tops, drawers, display shelves, shutters and all the furniture with stunning, beautiful & flawless Unicore surface that uniform look all across.

TRANSLUCENT LAMINATES

Stylam Translucent Laminates are special panels comprises of two or more sheets of glass adhered together by heat and the use of pressure with interlayer. The result is a milky appearance designed for glazing applications. Some common uses for Stylam Translucent lam are showering screens, internal office partitioning and privacy screens, it's also used to soften incoming light through diffusion. It can be manufactured with other interlayer color.

MAGNETIC LAMINATES

Magnetic Collection, from the House of Stylam, is the high-tech hybrid of industrial air and sophisticated design. Widely used for vertical applications and as an accent to counter-tops, the decorative metal line is surprisingly adaptable and a virtually unbreakable addition to any commercial project.

Magnetic Laminate have a strong magnetic effect and can be written on with Chalks or special board markers ideal for a wide variety of applications in environment such as retail, education, commercial & residential. Magnetic Laminate is a special type of Laminate that can use magnet to stick the paper or picture directly to the laminate.

ANTI FINGER PRINT LAMINATES

A touch won't raise eyebrows anymore.

Who wants to see stains and finger marks on Laminate surface that you have installed? No one. But the truth is you tough & you leave your trace behind.

Not anymore with Stylam Anti-Finger Print Laminates. It is a type of High Pressure Laminate that is used in the most demanding interior design applications. A unique technology during manufacturing ensures that finger marks are almost never seen thereby substantially reducing the effort required for care & maintenance. This stunning yet highly durable smooth surface is impact, scratch and heat resistant. It is much easy to clean and feels soft on the surface.

CHEMICAL RESISTANT LAMINATES

With excellent AB & AF properties, +Plus Guard Stylam panels will meet the demands in areas where chemicals & water are used more and where contamination is a genuine threat.

+Plus Guard Stylam Laminate is resistant to large numbers of relatively strong chemicals used in a laboratory making it ideal to be used in chemical, analytical, micro-biological, healthcare, pharmaceuticals and educational laboratories.

+Plus Guard Stylam Laminate provide highly durable surface in lab conditions and has better Abrasion & Scratch Resistance. EPH Tested. Available thickness: 2mm - 25 mm.

FLICKER LAMINATES

Stylam Flicker Laminates are a unique & stylish breed when it comes to variety of laminates. The attention they demand is instant and there is no question about the premium outlook it gives. The range of sparkle laminate is available in Silver & Copper Color. Silver gives an aristocratic feel while copper reflects an earthy, extrovert feel. Sparkles are like accent to the language. The character the laminates speak, and the way they express, is worthy of notice.

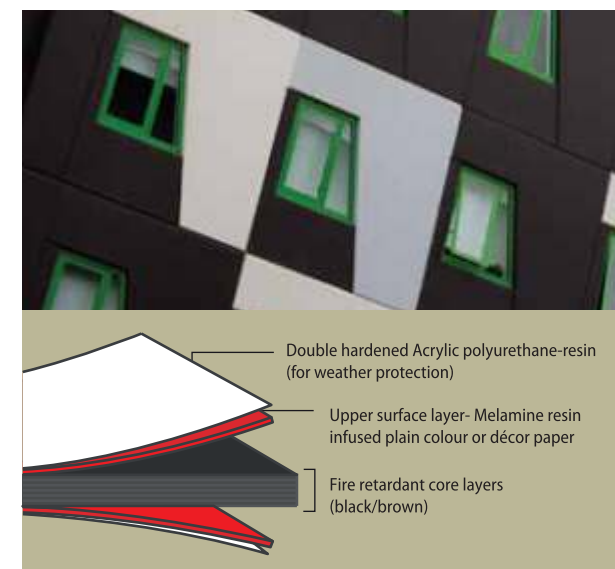

Also known as Glitter Laminates, these designs can be overlaid on any solid colors. If you are a fashion enthusiast and have an interior where each other the elements speak for it, the addition of Flicker Laminates will only be wiser.

FIRE RETARDANT LAMINATES

Fire Retardant exterior Laminate panels have extreme fire retardant quality which makes them difficult to ignite and have a low spread of flame. The evacuating time in case of fire is therefore prolonged. Imagine! The Laminate panels can be placed near fireplace or any other flame-prone area. Produced in lamination presses under great pressure and high temperature, these panels have excellent weather protection achieve with protective coating consists of double hardened acrylic polyurethane resins.

MIRROR SHIELD LAMINATES

Stylam always focus on R&D to develop & introduce something new into industry and in process come up with an interesting type of Laminate that can add immense value to the interior, especially the modern ones - The mirror laminates. They are manufactured using real Aluminum, Stainless Steel and

Copper foils bonded to a backing of Phenolic, resin impregnated Kraft paper giving a durable, semi rigid sheet for east fabrication and handling.

Mirror Laminate is considered ideal for adding air to light duty horizontal or vertical applications: Walls, Furniture, Retail xtures, signage, exhibits & displays. Taking the type of materials go behind the making of the Laminates, it is understood that they would be durable, wear resistant and resistant.

COMPACT LAMINATE PANELS

Stylam Compact Laminate Panels are available in the options of all Brown core, all Black core and Sandwiched design core. The prominent applications include Flooring, Cabin Partitions, Laboratory Furniture, Interior Walls, X-ray Tables, Bedroom Cupboards, Kitchen Working Surfaces, Living Room Cabinets, Bathroom Doors, Wall Panels and Exhibition Stands.

The Compact panels are formulated with inner core of celluloid fibres impregnated with special thermosetting resins. High values of Flexural strength and tensile strength ensures that these panels are suitable for saw cutting, drilling, machining and punching as per requirement.

FIRST INDIAN MANUFACTURERS WITH 1860 X 4320 mm PANEL SIZE

SMART BOARD WHITE CHALK BOARD

Stylam Chalk/Marker Board are made with special type of synthetic polymer which imparts durability to surface with easy cleaning of dry erase markers or wet erase markers. Chalkboard Laminate is the perfect solution for any space or application that demands a durable and affordable writing surface, and unlike other chalkboard surfaces, it requires no special maintenance.

Marker Board Laminate provides absorbent, dry erase compatible instant messaging surface suitable for variety of applications for board rooms, schools, clinics & hospitals. These laminates have non-porous Glossy white laminate surface which imparts excellent properties with special marker pens.

Digital Laminates are an easy, simple and reliable mode of artistic expression which offer architects & designers scope of imagination without boundaries. You can translate your imagination to something that you can see, touch & feel, this what sums up intention of Digital Laminates. These are customized printed laminates for interior décor, all we require is what look do you want, with themes ranging from nature, sports, food & romance you can choose from anything & could be applied on walls and partition walls, commercials, multipurpose furniture, stands and exhibitions, pictures, doors & many more areas.

POST FORMING LAMINATES

Stylam post forming laminate range has been exclusively designed for usage on vertical and horizontal interior surfaces, where the laminate is required to roll in a simple radius over the edges of substrate. With added flexibility, malleability and excellent thermoforming properties for forward and reverse bending applications, Stylam Post Forming Laminate enhances the decorative property if the edges of any regular laminate since it give no seams around corners and a smooth, evenly laminated surface.

High Gloss Laminate is carefully manufactured product to achieve a truly High glossy surface. Stylam gives much importance towards right combination of resins, chemical additives, curing time & temperature, decorative paper, abrasion resistance overlay & high quality steel press plates to give high gloss level to laminate sheet. At Stylam, we do lot of R&D to produce a cost competitive, high gloss surface with increased abrasion resistance. Stylam High Gloss Laminate range has all the properties required for a stress free surface solution which will stand the test of time.

Scratch-Proof Laminates aren't a fiction anymore. Stylam House proudly introduces our premium range of High Gloss Laminates with Brilliant MAR Resistance. The Brilliance of Gloss shall stay through years without any sigh of wearing out.

MR+ High Gloss technology gives excellent MAR Resistance thereby maintaining the gloss level three times longer than ordinary high gloss laminate. Our R&D Lab results show 95% gloss retention after being scrubbed with calibrate as per procedure. Moreover this gives 2 to 3 times better abrasion resistance than ordinary high gloss laminates. MR+ High Gloss Laminate is resistant to stain and shows better result compared to any other HG Laminates.

STYLAM SYNCHRO LAMINATES

Stylam Synchro Laminates has real feel of wood and elegant natural look carrying all advantages of Laminate. Other decorative laminate base paper pattern is not in matching with surface texture of decorative design, but to provide real natural feel to your interiors one need both laminate design & texture to be synchronized with each other, here comes Stylam range of Synchro Laminates designed carefully and especially for designers /architects/proud house owners to give there interiors a look with feel. In Synchro each Laminate surface texture is in synchronization with décor paper pattern, means the design you see is same you feel & experience. These Perfectionist laminates are connecting with people who love perfection, symmetry & synchronization.

ANTI-BACTERIAL & ANTI-FUNGIE LAMINATES

Anti-bacterial & Anti-fungi Laminates are intended for application where there is a need for additional protection of the surface against bacteria/fungi. A very special resin formulation is applied over decorative surface paper to achieve high degree of bacteria growth resistances. The decorative paper is impregnated with the special melamine resin and assembled with several layers of Phenolic resin treated Kraft paper and pressed under 90kg/sq cm specific pressure and at about 150 degree C temp for about 30 to 40 min. These laminate is easier to maintain as frequent cleaning in not required. Even the requirement of disinfectants is quite less.
